

Loop 2

Loop 1

1/4" TS Mono Cable →

Mode switch IN
(Mode LED ON)

Since the GT-100 only has 1 amp switching function, we set the Tap Dance™ to "Toggle" mode

This allows us to "Toggle" between loop 1 and 2 with only a mono footswitch function

The amp control function "on" in a preset will be loop 1 and "Off" will be loop 2

We have no affiliation with Boss and use the GT-100/GT-10 name only as a product the Tap Dance is compatible with

Toggle mode
